Round 2: Task Guidelines

Timeline: T-10

Manfest–Varchasva is a 3-day long Annual Business, Cultural and Sports fest, which hosts a variety of events. The operations team is integral in ensuring end-to-end management of logistics of all the events. It is the responsibility of the Operations Vertical to ensure flawless execution of events and smooth conduct of the fest by taking care of Administrative Activities, Infrastructure, Inventory and Vendor relationship.

The operations team is in charge of the inventory, and in a fest like Manfest-Varchasva with a varied portfolio of activities, a wide range of items need to be stored in the inventory.

Final Deliverables:

- Create a list of all items to be stored in inventory to manage Cultural, Management and Sports events. Come up with the requirements of all the verticals.
- Prepare an excel to show the money required to procure all the inventories stated above.
- Design a supply chain system which will help facilitate the quick transfer of equipment across all venues
