IIM Lucknow's Manfest-Varchasva in partnership with Futures First presents a workshop on financial derivatives.

Macro-economic factors have widespread impact on global financial markets and its constituents. Changes in one market is cascaded towards other financial market segments and drives major economics and trades around the world. With evolving technology, new tools and deeply interconnected world; the market behaviour has changed significantly. Traders need to be on their toe to understand the beats of the market and potential impact of their investments and transactions.

Register and take part in this knowledge cum activity session to develop understanding about Global derivatives industries, its participants and potential career opportunities.
